

# La Crosse Tent And Awning

## How To Choose The Right Size Dancefloor

When considering the size of dancefloor to rent, consider how many people will be dancing all at once. As a general guideline, one 3' x 3' section of dancefloor accommodates two people. If you already have a tent size in mind, be sure to check and make sure the width of the tent is listed next to the tent size you are considering, otherwise the dancefloor will not fit. If you have any questions, please give us a call, and one of our associates can help you select a size.
